

Electric Vehicle Charging Spaces

Coming January 3rd, 2023

WHATS NEW?

The Annandale Garage is getting 4 Electric Vehicle Spaces. The new EV spaces can be found on the **1st floor** of the AN Hourly Garage.

WHO CAN USE THE EV SPACES?

The EV spaces are available for use by Students, Faculty/Staff or Visitors to the college.

ONCE THERE HOW DO I USE THE EV SPACES?

To use the EV spaces follow the below guidelines:

- Any vehicle using an EV space must have either a valid parking permit or paid hourly time
- A charging session must be started using the  SEMACONNECT App.
- Once a session has started you may charge for **up to 4 hours** for free.
- Additional fees will be accrued for vehicles who stay in an EV space after the free 4 hour charging period.

WHERE DO I GET THE SEMACONNECT APP?

If you would like to setup your app early you can download it here:

We have also developed a guide to help you setup and use the app. It can be found in our How-To section: <https://www.nvcc.edu/parking/how-to-guides.html>

WILL THERE BE MORE EV SPACES IN THE FUTURE?

The AN EV spaces are a pilot program. We will be looking to expand EV spaces to all of NOVA's campuses in the future.

ANY QUESTIONS?
